Funcionalidad Cost Management

✓ **Introducción**

Funcionalidad Cost Management: Introducción

Cost Management es un conjunto de herramientas que permite monitorear, asignar y optimizar los costos de las cargas de trabajo de suscripciones de Azure. Esta herramienta nativa del licenciamiento Pay-As-You-Go (PAYG) muestra valores que se ajustan con los precios de la calculadora pública de Microsoft.

En el licenciamiento Microsoft Cloud Solution Provider (CSP), se permite habilitar esta funcionalidad solo para estimar el consumo de las cargas de trabajo, mas no para comparar los valores que se indican en el Cost Management y el Insights del proveedor de servicios. La habilitación de esta funcionalidad se puede efectuar directamente desde el portal Intcomex Cloud Platform (ICP).

CLOUD

✓ Activación

Funcionalidad Cost Management: Activación

Como primer paso, hacemos clic sobre la suscripción de Azure Plan. Luego, hacemos clic sobre el botón **COST MANAGEMENT**.

Funcionalidad Cost Management: Activación

A continuación, se despliega una ventana emergente en donde activaremos el Cost Management para **todas las suscripciones de Azure** alojadas bajo el Azure Plan seleccionado.

The screenshot shows the Azure portal interface with a 'Cost Management' dialog box open. The dialog box has a title bar with 'Cost Management' and window control icons. It is divided into two main sections:

- About cost management:** Contains the text: "Once the cost management policy is enabled, end customer users with access to azure subscriptions will be able to view the azure charges at pay as you go rates in Azure Portal."
- Policy status *:** Contains a dropdown menu currently set to 'Disabled' and a description: "Disables the cost management policy."

At the bottom right of the dialog box, there are two buttons: 'OK' (highlighted in blue) and 'Cancel'.

The background shows the Azure portal navigation pane with 'COMPANY STRUCTURE' and 'All companies' selected. The search bar is empty. The main content area shows a tree view with 'OINSAMED GROUP' expanded, containing 'Azure Plan (Oinsamed Group)' and 'Microsoft Organization'.

Funcionalidad Cost Management: Activación

Seguidamente, en el campo **Policy status**, seleccionamos la opción **Enabled** o **Habilitado**.

The screenshot shows the Azure Cost Management interface. A modal window titled "Cost Management" is open, displaying the "Policy status" dropdown menu. The "Enabled" option is highlighted in yellow, and a mouse cursor is pointing at it. The background shows the "COMPANY STRUCTURE" sidebar with "OINSAMED GROUP" and "Azure Plan (Oinsa...)" selected.

Section	Description
About cost management	Once the cost management policy is enabled, end customer users with access to azure subscriptions will be able to view the azure charges at pay as you go rates in Azure Portal.
Policy status *	Once the cost management policy is enabled, end customer users with access to azure subscriptions will be able to view the azure charges at pay as you go rates in Azure Portal.

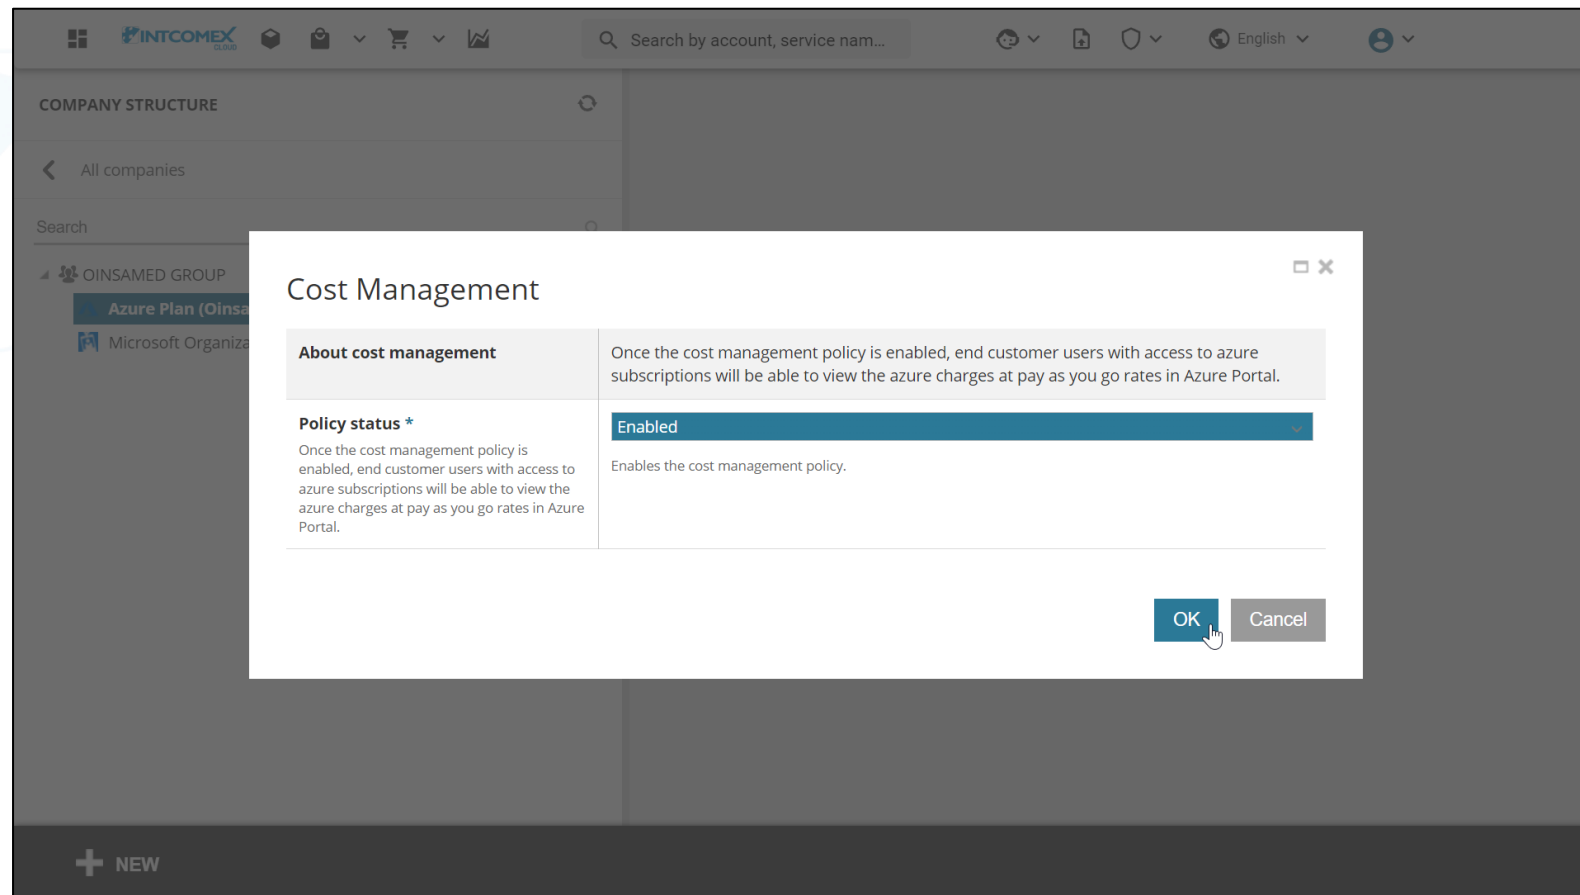

Policy status options: Disabled, **Enabled**, Disabled

Buttons: OK, Cancel

Funcionalidad Cost Management: Activación

Por último, hacemos clic en el botón **OK** para concluir con el proceso.

The screenshot shows the Azure portal interface with a 'Cost Management' dialog box open. The dialog box has a title bar with 'Cost Management' and window control icons. It contains two sections: 'About cost management' and 'Policy status *'. The 'Policy status *' section shows a dropdown menu set to 'Enabled'. At the bottom right of the dialog, there are 'OK' and 'Cancel' buttons. A mouse cursor is pointing at the 'OK' button. The background shows the Azure portal navigation pane with 'COMPANY STRUCTURE' and 'All companies' visible.

Section	Content
About cost management	Once the cost management policy is enabled, end customer users with access to azure subscriptions will be able to view the azure charges at pay as you go rates in Azure Portal.
Policy status *	Enabled Enables the cost management policy.
