Aprovisionamiento del servicio Indirect Reseller Experience

# Consideraciones

# Consideraciones

Mediante la nueva oferta de Azure, como socio del programa Microsoft Cloud Solution Provider (CSP), tiene acceso a admitir, configurar y administrar directamente las suscripciones de Azure de sus clientes por medio del nuevo servicio Indirect Reseller Experience.

## 1 Azure Active Directory como socio de Microsoft

1. Cada revendedor incorporado al portal **Microsoft Partner Center** posee un tenant activo de Azure Active Directory (Azure AD).

## 2 Control mejorado en Azure Plan

1. Cuando un revendedor se enrola al programa **CSP Indirect Reseller**, en el Azure AD se crean por defecto 2 grupos predeterminados que se usan para otorgar acceso a miembros del revendedor sobre las suscripciones de Azure dentro del Azure Plan de los clientes finales

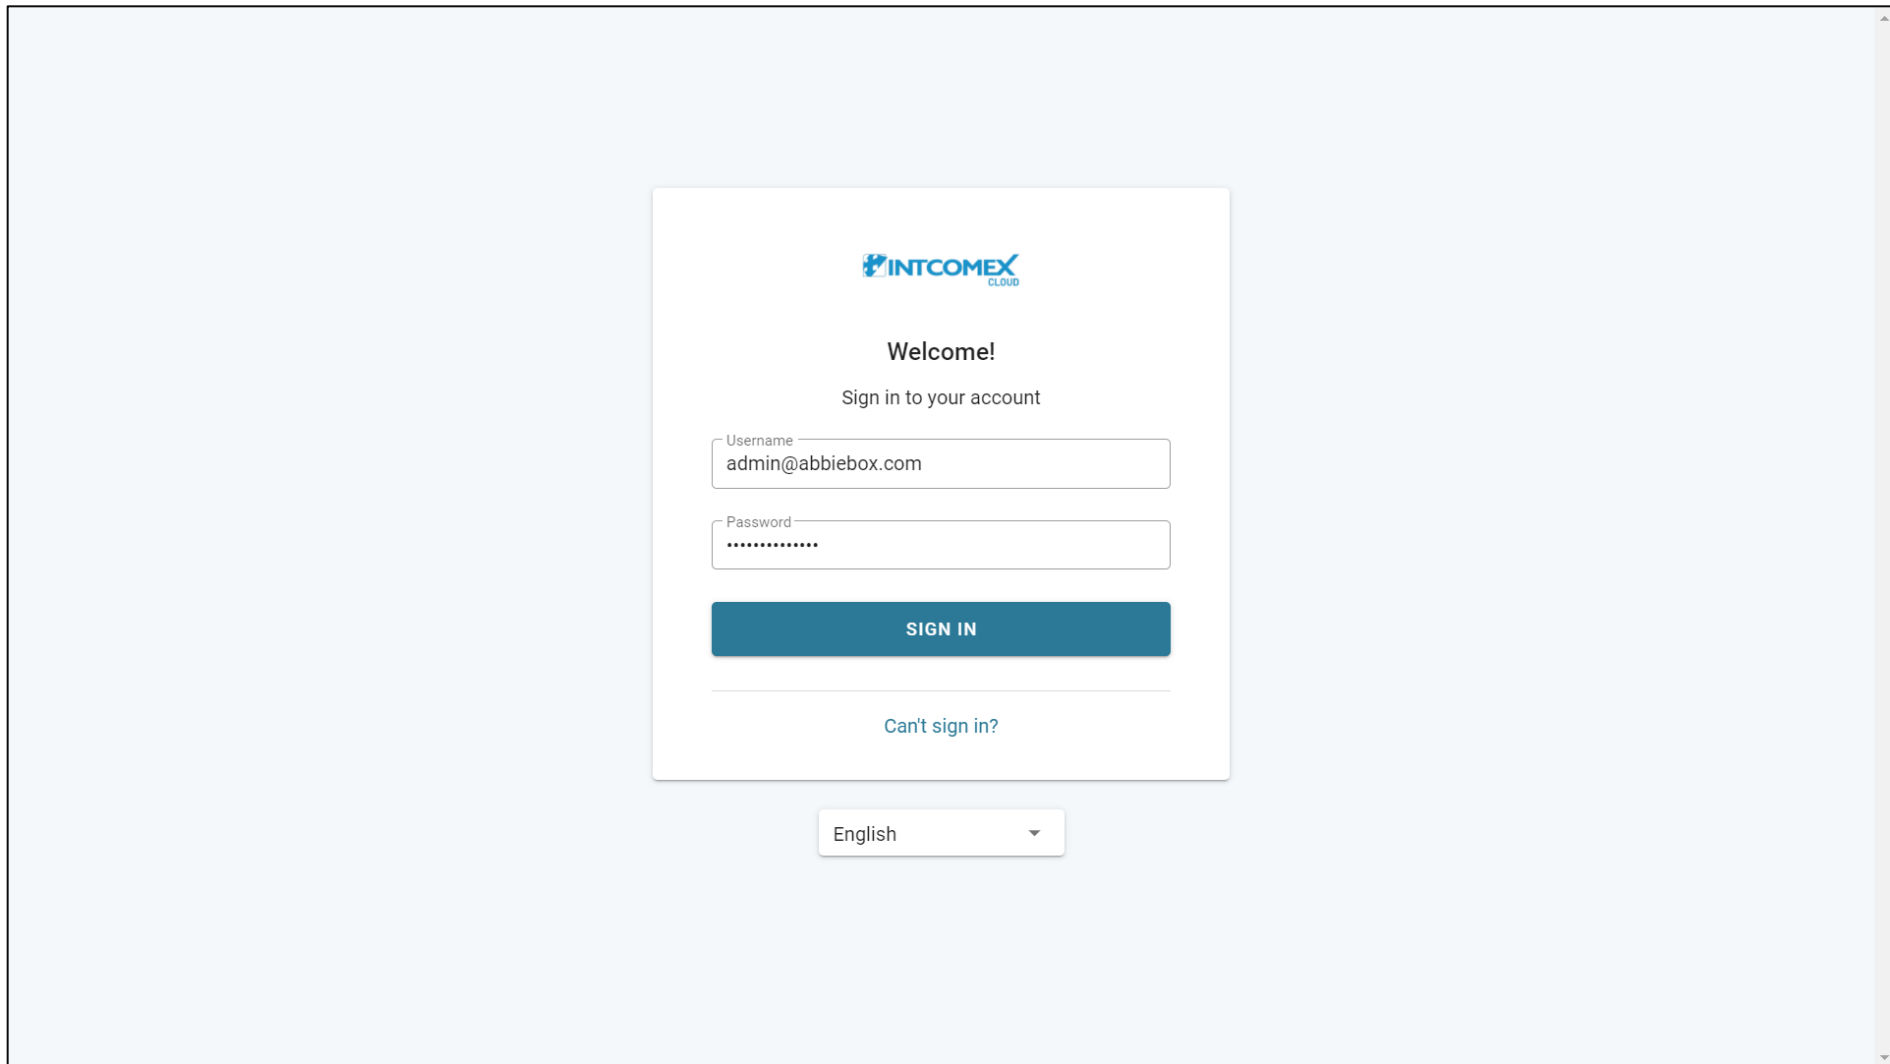

## 3 Nueva experiencia como revendedor

1. El aprovisionamiento del servicio **Indirect Reseller Experience** en portal Intcomex Cloud Platform (ICP) brinda la posibilidad de listar los grupos Admin Agent y Helpdesk Agent para utilizarlos posteriormente para otorgar permisos sobre las suscripciones de Azure
