

Intcomex Cloud Platform

Enabling services on a marketplace

Overview

If you can't find a service during the provisioning process, it might not be enabled in your **marketplace** yet. The marketplace acts like a **price list** assigned to each customer. To enable new services in your marketplace, just follow the steps outlined in this manual.

Steps to follow

In the Intcomex Cloud Platform (ICP) portal, navigate to the Marketplace module at the top of the screen.

Next, choose the **marketplace** where you want to activate the service you need.

TINTCOMEX 🖀 Home 🗸 🖓 Marketp	lace 🖩 Quotation	Tool 🛷 Provisioning 🗸 í Reporting 💿 Support 🗸			🎵 Arturo Bejarano 🗸 🔍

	Price Priority 🔞	Title	Customers	Services	
	1	ABBIE BOX - Marketplace	🤱 З	G 1027	
	_				
+ NEW					

Next, click on the **EDIT MARKETPLACE** option at the bottom of the screen.

Next, choose the **Add services** option.

Next, you'll see the range of available services that can be added to your marketplace.

In the search box, type in the service you want to enable. Then, click the magnifying glass icon or hit Enter.

Then, click the (+) icon next to the service. Finally, close the window.

Helpful tips

In the pool of services, you can use the **Vendors** filter. This will help you find the service you need to enable more quickly.

In the service pool, you can enable all visible services by clicking the **Add all visible services** button. This option lets you activate every service shown on each page of the window.
